NOVEMBER 7, 2008
**NOTICE OF ACTION RELATED TO
PROPOSED PERMIT MODIFICATION
GREGORY CANYON LANDFILL**

PROJECT TYPE/NUMBER: Modified Solid Waste Facility Permit
Permit # 37-AA-0032

DATE ACCEPTED: August 27, 2007

PROJECT NAME: GREGORY CANYON LANDFILL

PROJECT LOCATION: 9708 Pala Road
Pala, CA 92059

FACILITY CONTACT: Gregory Canyon Limited (858) 792-7661

APPLICANT: Gregory Canyon Limited

LEA CONTACT: Rebecca Lafreniere, Supervisor
(858) 694-2232

In accordance with Title 27, California Code of Regulations 21660.3, please be advised that the County of San Diego Department of Environmental Health Solid Waste Local Enforcement Agency (LEA) received and has accepted an additional extension of the deadline for action on the pending application for a modification of the Solid Waste Facility Permit for the Gregory Canyon Landfill. The LEA is certified by the California Integrated Waste Management Board (CIWMB) to enforce state laws and regulations at solid waste sites within the County of San Diego.

Description of the Project and the LEA's Determination

The proposed 1,770 acre Gregory Canyon landfill site is located in northern San Diego County (http://www.sdcountry.ca.gov/deh/waste/pdf/chd/gc/gc_maps.pdf) on State Route (SR 76), approximately three miles east of Interstate 15 (I-15) and two miles southwest of the community of Pala. The site is adjacent to the San Luis Rey River and lies along the western slope of Gregory Mountain. The current Solid Waste Facility Permit for the disposal site was issued on December 17, 2004.

On July 27, 2007, a solid waste application package for a modified permit was received by the LEA. This package included updates to land use mitigation measures identified in the Revised Final EIR.

On August 27, 2007 the LEA determined the Gregory Canyon Landfill solid waste facility permit application package to be complete and correct.

On September 26, 2007, in accordance with the Public Resources Code §44008, the applicant waived the LEA statutory timeline. This waiver of timeline granted the LEA an additional 30 days in its determination of whether the permit is to be processed as modified or as a revision.

On October 15, 2007, the LEA determined that the permit application package would be processed as a permit modification. On October 25, 2007, the applicant provided a second waiver of timeline extending the deadline for submission of the proposed permit application package to the CIWMB to December 31, 2007.

On December 21, 2007 the applicant provided a third waiver of timeline extending the deadline for submission of the proposed permit application package to the CIWMB to January 18, 2008.

On January 17, 2008, the applicant provided a fourth waiver of timeline extending the deadline for submission of the proposed permit application package to the CIWMB to March 21, 2008.

On March 20, 2008, the applicant provided a fifth waiver of timeline extending the deadline for submission of the proposed permit application package to the CIWMB to April 30, 2008.

On April 28, 2008, the applicant provided a sixth waiver of timeline extending the deadline for submission of the proposed permit application package to the CIWMB to June 30, 2008.

On June 9, 2008, the applicant provided a seventh waiver of timeline extending the deadline for submission of the proposed permit application package to the CIWMB to August 15, 2008.

On August 8, 2008, the applicant provided an eight waiver of timeline extending the deadline for submission of the proposed permit application package to the CIWMB to November 15, 2008.

On October 30, 2008, the applicant provided an additional waiver of timeline extending the deadline for submission of the proposed permit application package to the CIWMB to January 15, 2009. The CIWMB Executive Director then has 60 days to concur or object.

Where a copy of the permit application can be reviewed

A copy of the permit application is available for review by appointment at the Department of Environmental Health office located at 9325 Hazard Way, San Diego.
